

FREMONT COUNTY  
ENTRANCE PERMIT

Permit No \_\_\_\_\_

(Application for Permit to Construct Entrance from Private Property to County Road)

Applicant \_\_\_\_\_  
(Owner or Owners or Record)

Address \_\_\_\_\_

Date \_\_\_\_\_ 20 \_\_\_\_\_ Telephone Number \_\_\_\_\_

A permit is hereby requested to construct an entrance twenty (20) feet in width, from right of way line to road traveled way, including necessary drainage structure thereunder.

For variance in driveway width greater than 20 feet; please note on Item 11.

The applicant agrees that if granted a permit to construct the above described entrance, the following stipulations shall govern.

1. "Written approval of the County Engineer shall be obtained before any change is made in the entrance or its location".
2. That the entrance, including installing the drainage structure, grading and surfacing, shall be constructed by the owner at the owner's expense, in accordance with the specifications of the County. The initial pipe (if required) may be provided by the County. Nothing in this stipulation, however, shall preclude the County from entering upon said entrance on County right of way and performing necessary maintenance.
3. That the construction, of the entrance shall be completed by the \_\_\_\_\_ day of \_\_\_\_\_ 20\_\_\_\_\_.  
(The permit is null and void if drive is not completed by the above date unless extension is granted in writing by the Department.)
4. That the construction entrance shall be carried on in such a way as not to interfere with, or interrupt traffic on said highway, and the owner shall take all

reasonable precautions to protect and safeguard the lives and property of any person or persons, and shall save the County harmless of any damage or losses that may be sustained by any person or persons on account of such construction, repair or maintenance operations.

5. That no filling will be permitted in the right of way other than that necessary to construct the proposed new entrance. That the culvert pipe under the entrance shall be \_\_\_\_\_ inches in diameter and \_\_\_\_\_ in length. The pipe shall be installed at the elevation specified by the County Engineer. The finished surface elevation of the driveway over the the pipe or place where the pipe would normally be shall be a minimum of 0.5 feet lower than shoulder elevation to prevent water from draining onto the pavement or traveled way. Side slopes will be determined by the County Engineer.
6. Owner's attention is directed to the fact that private property may not be used so as to obstruct or encumber the public highway right of way, or interfere with the safety, comfort, and rights of public highway users.
7. Section 319.14 Code of Iowa requires any work performed under this permit to be in conformity with the specifications of the County. If the applicant does not conform to these specifications the County may make the necessary changes and charge the cost against the person responsible, including court action if necessary.
8. Before beginning work in the highway right-of way, it is the responsibility of the owner to contact utility companies which may be located in the area of proposed work.
9. Unless specifically noted in this application, all work performed within the right-of-way shall be restricted to a time frame of 30 minutes after sunrise and to 30 minutes before sunset.
10. The county will maintain said entrance and pipe culvert after accepted. However this does not include surfacing of said entrance which shall remain the owners responsibility.
